

# Wifi settings

TR8100V-WIFI

---

## Download the “Hi Thermostat” app

Before configuration, you need to download “Hi Thermostat” app and install it on your phone.

For iPhone, go to the Apple app store and search “Hi Thermostat”;

For Android phone, go to Google play on your phone, and search “Hi Thermostat” app.

Then create an account with your email address and sign in;

For initial setup, keep your phone, your thermostat, and your WIFI router as close as possible. Follow the below steps,

---

## On your thermostat

Step 1. Press POWER to turn your thermostat off, you will see OFF on the screen;

Step 2. Press and hold the top right corner for about 5 seconds until you see “Menu 11”;

Step 3. Press and hold the UP button until you see “LnH”;

---

## On your mobile phone

Step 1. Touch “+” on the top right corner to start adding your thermostat;

Step 2. Input the password for your Wifi network and press “Confirm”.

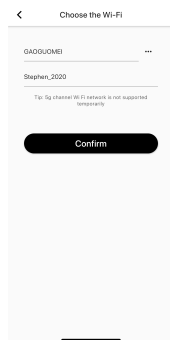

Step 3. Press “Confirm connect”.

Step 4. Press “Join” if your mobile phone pops up this message.
